

## E-Learning Lesson Plan & Instructions

<b>Teacher</b>	Primary
<b>Date</b>	E-learning days
<b>Grade Level &amp; Content Area</b>	Primary
<b>Objectives</b>	The objective of these activities is to allow students the opportunity to discover that learning is not restricted to the classroom. Students will discover that they can learn and grow in any setting.
<b>Standards covered</b>	<p><b>Science:</b> Characterize materials as solid, liquid, or gas and investigate their properties, record observations and explain the choices to others based on evidence (i.e., physical properties).</p> <p><b>Language Arts:</b> Retell stories, fables, and fairy tales in sequence, including key details, and demonstrate understanding of their central message or lesson. Using key details, identify and describe the elements of plot, character, and setting.</p> <p><b>Math:</b> Organize and interpret data with up to three choices (What is your favorite fruit? apples, bananas, oranges); ask and answer questions about the total number of data points, how many in each choice, and how many more or less in one choice compared to another.</p> <p><b>Social Studies:</b> Compare the way individuals in the community lived in the past with the way they live in the present. Example: Clothing, the use of technology, methods of transportation, entertainment and customs.</p>
<b>Materials / websites needed</b>	Paper, pencil, crayons, water & measuring cup
<b>Instructions</b>	<p><b>Cold Weather Science</b>            Measure one cup of water.            Place the cup of water outside.            Observe &amp; report how long it takes to freeze.            Observations should be recorded every 30 min.            Use pictures, words and sentences when possible.</p> <p><b>Language Arts</b>            Write a script from their favorite book, do research on the web to find out how to make puppets and produce a puppet show.</p>

	<p><b>Math</b> Draw a map of the inside of your house. Count how many steps it takes to get from your room to your parents' room. Count how many steps it takes to get to the kitchen from the bathroom. Count how many steps it takes to get from the living room to your bedroom. Record steps on your map. Graph steps from least to greatest.</p> <p><b>Social Studies</b> Interview your parent and ask them what they did on snow days. Compare it to your day today. Create a venn diagram.</p>
<b>Assessment</b>	<b>Students will turn in their work on their first day back after the e-learning day.</b>
